PROFILE

Seeking a challenging career with opportunities for growth through continuous learning. Eager to contribute my skills and knowledge to a progressive organization that encourages development and innovation. Committed to achieving both personal and organizational goals through dedication and teamwork. I have knowledge on JAVA, Spring Boot, Micro Services, MongoDB, SQL.

PROJECTS

- **Weather App**

Technologies Used : Java, Spring Boot,
ReactJS, MySQL, HTML, CSS

Description :

- Developed a weather application that provides real-time weather updates based on city searches.
- The app fetches data from an external API and stores search history in a MySQL database.
- It includes Admin and User Login functionality, where admins can manage user activity and system settings, while users can search for weather updates and view their search history.

STRENGTHS

- Time Management
- Problem Solving Skills
- Quick Learner

HOBBIES

- Learning new things
- Playing cricket
- Listening music
